

July 13<sup>th</sup> 2020

# Ecodesign preparatory study on mobile phones and tablets

*1<sup>st</sup> stakeholder meeting*

*D. Polverini*  
*European Commission*

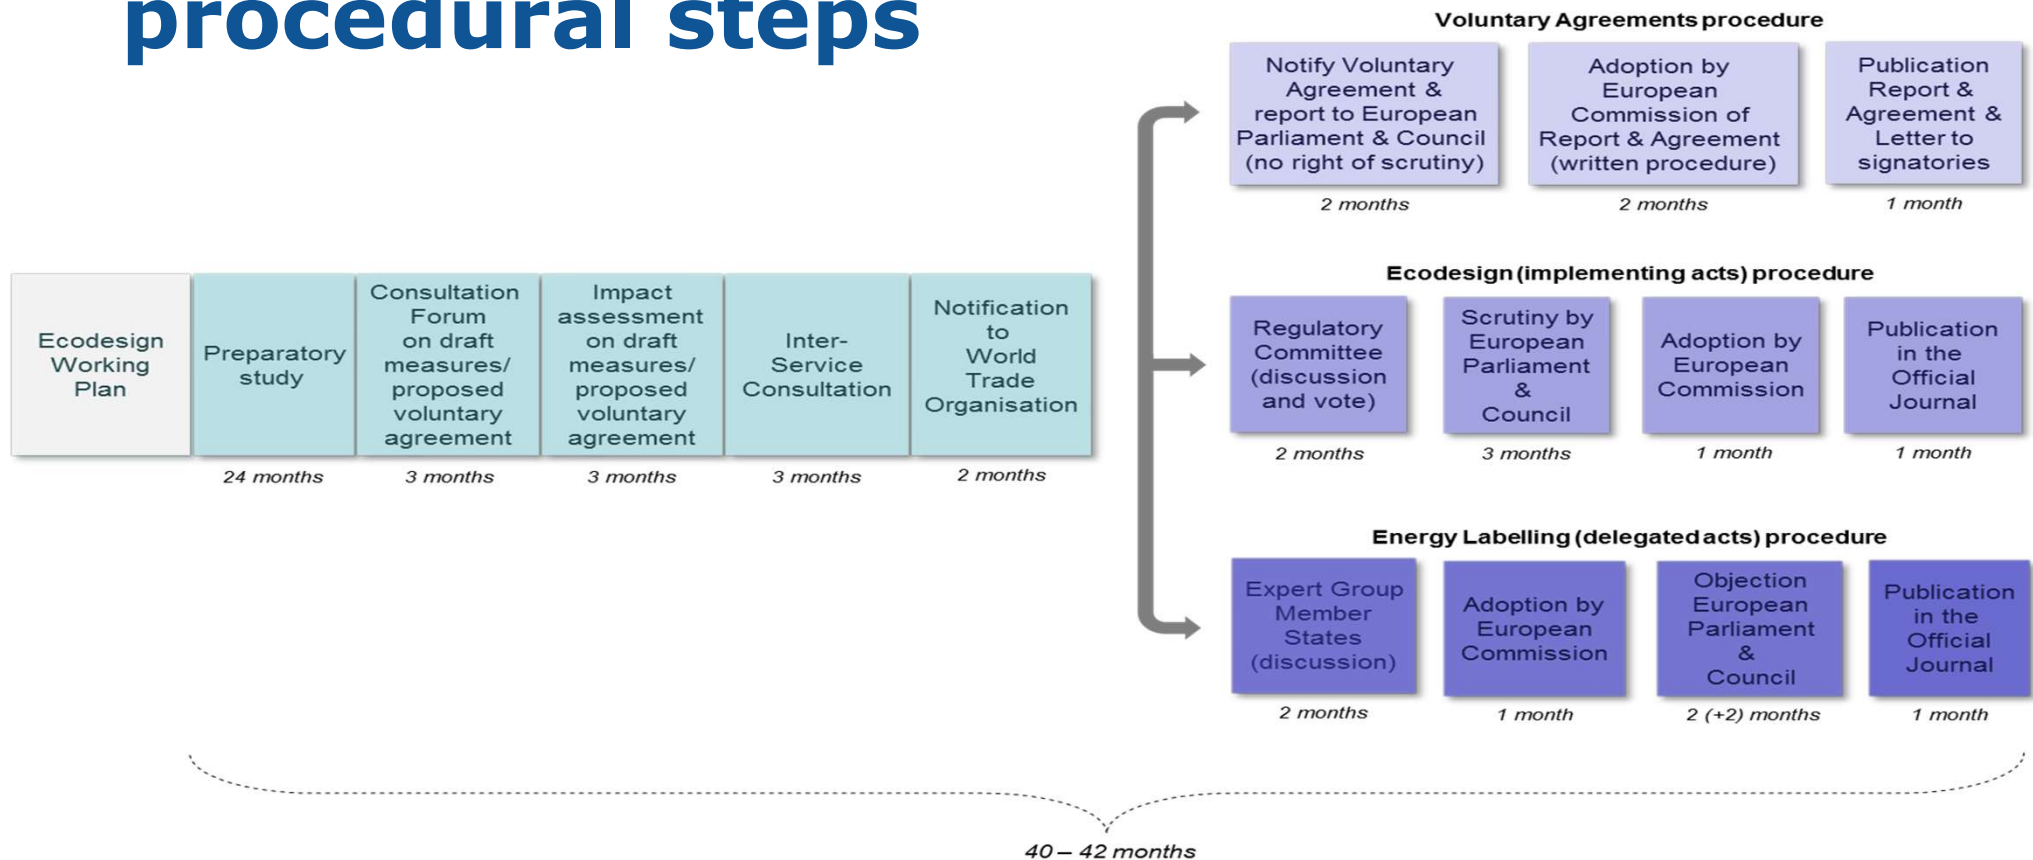

# Circular Economy Action Plan 2020 – Circular Electronics Initiative

- *regulatory measures for electronics and ICT including mobile phones, tablets and laptops under the Ecodesign Directive so that devices are designed for energy efficiency and durability, reparability, upgradability, maintenance, reuse and recycling.*

## Related studies

- *JRC study on material eff. of smartphones*
- *study on options for eu-wide return schemes of mobile phones, tablets and other small electrical and electronic equipment*
- *Study on the environmental impacts of ICT and on potential policy approaches*
- *(upcoming) review study on the MEErP*

# Ecodesign/Energy Labelling procedural steps

..and the issue of procedural timing in this specific case

## Horizontal issues and challenges

- *Aim of the study: analyse the feasibility of ED/EL measures for mobile phones&tablets*
- *Strong relevance of material efficiency aspects – linked to this, dedicated approaches under the MEErP*
- *Quantitative methods and standards for the assessment*

# Thank you for your attention!
